

# Zoet pleasureshot

**Pleasureshot** intimate serum is designed to enhance sexual stimulation while providing long lasting glide.

## Our Powerhouse Ingredients:

### L-Arginine-HCl:

L-Arginine has been shown to improve blood flow to the genital area by dilating blood vessels.

### Ginkgo Biloba Extract:

Some studies show that ginkgo enhances the effects of nitric oxide, which helps relax artery walls, allowing more blood flow to the intimate area.

### Damiana Leaf Extract:

Damiana helps to increase blood flow to the genital area during sexual stimulation.

### Humulus Lupulus Extract:

Estrogen is the most important sex hormone found in women and sometimes plants are found to contain chemicals known as phytoestrogens which mimic the effect of natural estrogen found in human bodies. Studies have shown that hops contains prenylnaringenin, one of the most potent of all phytoestrogens. Hops may help women to be sexually aroused, have better vaginal lubrication and more intense orgasms.

### Mucuna Pruriens:

It is considered one of the most potent aphrodisiac that boosts sexual desire.
